BROOKLYN ITEMS.

A WOMAN LOSES A HOUSE AND LOT BY THE CONFI-DENCE GAME. - Some months since, a young woman named Anna M. Marston, residing at No. 370 Grand street, appeared before Justice Clarry and preferred a complaint against ex-Policeman Wm. B. Sheldrick, compaint against ex-roncema win. B. Sheater, compaint against ex-roncema win. B. Sheater, the sheater of the sh charging him with fraudulently obtaining the house became involved in difficulty, upon which it is alleged that Sheldrick induced her to make over the property to him, to hold in trust until such time as she should require him to re-deliver it. It is also alleged that the accused, after receiving the papers, mortgaged the house for the sum of \$800 to a man named Van Alst. Upon legal proceedings being taken, Sheldrick fled. and, it is believed has been lurking about Harlem the past Winter. He is an Englishman by birth, about 45 years of age, and for several years was a schoolmaster in the Sixteenth Ward. The following is the affidavit made before Justice Clarry:

made before Justice Clarry:

City of Brookips, Kings County, st. — Anna M. Marston of said City and County being duly sworn says: That on or about the 23d of April, 1856, at the request of William B. Sheldrick, she executed and delivered to him, a deed of a been given by the consideration in fact, and to be held by bian until she should request him to re-deliver the said property back to her or such person as she should direct. That the said conveyance was by deponent as attorney for Louiss Marston to whom the property belonged, and that the deed was in its form and terms absolute on its face, but that in fact it was not intended to pass any title to the said Shedrick, neither did he pay anything thereon. And deponent says she has been informed and believes that, by representing himself to be the owner in fact of said property and claiming to have title thereto, he has obtained upon the same by mortgage the sum of \$800, and deponent therefore charges the said Shedrick with having on or about the month of May last, in Kings County, designedly and feloniously, and by false tokens and pretences and with the use of false title deeds, obtained from one Van Alst the sum of \$800 upon the security of a mortgage upon said property; which representations were false and frandulent and made to cheat the said Van Alst; and deponent prays that he may be dealt with according to law.

THE NEW LIQUOR LAW .- Several of the Brooklyn Justices have decided not to dispose of drunken cases, as provided by the new license law, until ten days after the Commissioners assume the duties of their office. The County Judge and his associate will appoint the Commissioners on the 19th inst., the time fixed by law, and ten days thereafter all who are found drunk will be fined \$10, or imprisoned for ten days. They must also tell where they got their liquor.

FIREMEN'S VISIT .- Phonix Engine Co., No. 12 of this city are making arrangements to receive Phoenix Co., No. 5, of New-Haven, who are expected here on a visit on the 14th instant. A display will probably be made in which several companies will participate.

THE PAY OF THE POLICE.—The Auditor refuses to pay the police for services after the 23d of April until a decision is had to see who has the governing power.

COLLECTIONS .- During Easter \$185,725 were collected in the Roman Catholic churches of Brooklyn for the Orphan Assylum.

THE COURTS.—The Court of Oyer and Terminer organized yesterday morning before Judge Birdseye, and Justices Schoonmaker and Emmons. A Grand Jury being in session, there was no occasion to form another, and the panel was discharged. The Grand Jury of the Court of Sessions were expected to report, but a large amount of business having reently been brought before them, they will be compelled to sit three or four days longer before making their final presentment.

SNATCHING A PORTEMONNAIE.—Two colored boys, named Benj. R. Weeks and William H. Addison, were taken into custody, in Fulton street, last evening, on the charge of petit larceny. It appears they followed a woman named Addiside McKenny, and perceiving a pocket-book in her hand matched it and ran off. They were detected by Mayor Powell and Mr. Matthew Hall, who arrested them. The pocket-book contained \$7. They were committed for a hearing. The property was found on Weeks.

RACING HORSES .- Yesterday afternoon four young men who were returning from a funeral at Calvary Cemetery, were arrested by the Seventeenth Ward police for running their borses through the streets of Greenpoint and endangering the

lives of pedestriens. They save their names as James Qui Patrick O'Donbell, Wm. Foley and John McMuillgan, all vidents of the Fourth Ward, New York. They were taken fore Jurtice Perry and fixed \$10 each.

SLAVERY AND THE BIBLE.-The Rev. O. B. Frothingham, delivered a lecture upon " Slavery and the Bible" in the Unitarian Church, corner of Grove and Montgomery streets, Jersey city, on Sunday even ing. He proceeded without any text, he said that the Bible and Slavery were strange words to be comprehended in the same breath. He went over the whole ground usually taken by Pro-Slavery Divines in de-fense of the peculiar institution. He reviewed the administratic of Moses and proved it to be beyond all doubt emphatically hostile to the system of Slavery, which, liberal as it was compared with that of modern times, then existed. He then reviewed the doctrines and teachings of Christ as opposed to Slavery in its mildest as well as severest forms, proving that Christ did unmistakably attack the institution in its most vital point, the principle upon which it was based. He then went on to dispose of Paul's conduct in the case of Onesimus, giving an exact translation of Paul's letter to Philemon showing that Christianity was with Paul a reality in its influence over the brethren in Christ Jesus, whom they professed to follow or to imitate. He then, in a tone of severe satire, contrasted the moralists of the antique ages, when Greece and Rome were at their zenith, with the hightoned philosophy and Theology of Dr. Adams, of "South-Side View" notoriety, and others who stand in an equally hostile position in relation to the demands and general tendency of the age. The church was comfortably filled with a congregation which could not fail to have gone away wiser than they came. THE JERSEY PEARL FISHERY, - Discovery of a Black

THE JERSEY PEARL FISHERY.—Discovery of a Black
Pearl.—The Patterson Guardian of the 2d inst. says, that "The
stream riof of Mr. Vreeland, who lives at Centreville, near the
Noteh Brook, one day this week discovered a large and lastrous
black substance in a mussel or fresh water clam. Upon
further examination it was found to be a heautiful black pearl,
as dark as the blackest jet, and very brilliant. It was brought
to the city by Mr. Vreeland and left with Mr. Lavarack for the
inspection of the curious. It is round and perfect in shapes, excepting the bottom, which is required but a little flattened. Underneath is a small, clear and perfectly white spot in the
center. This remarkable seem is from though Noteh Rock cepting the bottom, which is regular but a little flattened. Underneath is a small, clear and perfectly white aport in the center. This remarkable gem is from the old Notch Brook, which stream has thus far produced the richest as well as the most corrous specimens. Mr. Lavarack has several pearls from the Hohokus stream, on exhibition. None of them are very large, yet several of great beauty. They were found by a Mr. Chadwick of that place.

We learn that the people of Paramus have determined to arrest all trespassers upon their brooks hereafter; and some of them have posted notices to that effect.

The Hudson County Courts commence this morning. LAW INTELLIGENCE.

MECHANICS' LIEN LAW.

John Lynch et al. agt. Mary A. Cushman.

This was a proceeding under the Mechanics' Lien law. It appeared in evidence that the plaintiffs were sub-contractors, and had agreed with one Egyleton, a contractor, to seect the stairs, k.c., in a building of the defendant's; that they had done the work, and that the defendant had paid Egyleton the amount of money due on the contract.

The plaintiffs claimed that the payment was made fraudulently, and offered evidence to show that the defendant had paid the contractor before the work was done, with the intent to cheat the plaintiffs. The defengant's counsel objected to any work of the money due from the sometimes of the money due from the sowner to the contractor at the time of filing the lien, and that there was no evidence of fraud adduced by the plaintiffs. The Court dismissed the complaint with costs. John Moody, for plaintiffs; C. Kesser, for defendant.

	BIOSCAL BLAV 4-1. M.

The transactions of the Board this morning were no large, and the prices show a general decline on the closing quotations of Saturday. At the close of the Second Board, there was a little rally in Erie and Reading, which closed severally at 42t and 81. In the case of the former, the recovery from the lowest point was ! P cent. The principal movement in Erie was at the Second Board, when a prominent bear sold 3,000 shares at 42, seller thirty. After the registerlist, some 1,000 shares were bought at 421, buyer thirty. In other stocks there was no feature of special interest, but they exhibited a general lack of animation and heaviness at the close. The outside public, despite the ease in money, do not yet appear in the street, to any extent, as far as we can learn by inquiry among the commission brokers.

The market is quite dull for foreign Exchange, both Sterling and Continental, but rates are unchanged. Sterling, 9@91 P cent; Francs, 5.221 @5.181.

Freights are rather firmer, but unsettled. The engagements to Liverpool 300 bales Cotton at 2s. 22s. 6d.; 45 bales Sea Island at id.; Bacon and Lard at 10s.; 200 tcs. Beef at 1s.; 40 hhds. Hams at 10s.; 40 hhds. Tobacco at 12s. fd.; Flour at 6@9d.; Grain at 2@21d. To Havre, 30 obls. Ashes at \$8 @ \$9. To Bremen, 500 bales Cotton at id.; 1.000 bbls. Rosin at 2s. 3d. A schooner to Key West, with Lime and Cement, at 40c. P bbl. A ship from Bic to London, 1,000 tuns burden, on private terms. A new ship built at Bath, Maine, by Messrs. Trufaut, Drummend & Co., was bought by Messrs. Stanton & Ruger to sail on Bremen account, and under Bremen colorsburden 1,180 tuns.

The business at the Sub-Treasury was: Receipts,

\$312,298 03; Payments, \$430,642 22; Balance, \$14,-295,768 40.

The weekly Bank statement was generally received in the street to-day as favorable. The increase in the line of loans was doubtless in preparation for the large payments of to-day, which passed off well. The increase in the specie reserve is as large as could have been anticipated under the considerable foreign drain of last week. An enlargement of the undrawn deposit line is shorn of about a million, which is mainly the result of the increase of loans. The undrawn deposits are \$68,078,000 against \$67,068,000 last week. We should have been better pleased to have seen a conservative course followed by Banks and a steady line of loans maintained, instead of an expansion, but we presume as long as large dividends are the ambition of Bank officers we must look for the inflation of loans to the very verge of danger. The comparison with last week is as follows:

Duncan, Sherman & Co. purpose to ship about \$460,000 by the Vanderbilt from this port. The business of the Clearing-House was \$35,-467,600.

It is intended to have a complete reorganization of the Harlem Railroad Company's management, a change which has been for sometime much needed. Most of the members of the present Board have but a small interest in the road, and pay but little attention to their duties. A new ticket, of which we annex a copy, will be chosen at the coming election, upon which are only four of the old Directors, Messrs. Wetmore, Edmonds, Brooks and Aiken. Among the new members will be found three very prominent citizens, C. Vanderbilt, George Law and Daniel Drew. There should be energy and business talent enough in such a combination to place the Harlem Road upon a much better basis than it has of late occupied. It is understood that one of the most pressing duties of the new management will be to force the New-Haven Company to do justice to the Harlem Company, and pay the latter Company justly for the use of their track

from Williams' Bridge.

Directors—Allan Campbell, William C. Wetmore, Cornelius Vanderbilt, Geotre Law, Daniel Drew, Horace Brooks, John Harper, Francis W. Edmonds, Charles W. Sandford, Henry S. Blatchford, Saml. B. White, Albert J. Alkin, Abm. B. Bayliss.

Mr. Allan Campbell will be the new President, vice

Mr. Hurd, resigned. At an election for Directors of the Nicaragua Company, held to-day, the following ticket was elected: For President-James M. CROSS.
For Directors-Daniel B. Allen, John P. Yelverton, Richard Varick, Peleg Hall, Frank Work, Chauncey St. John.

This is a good ticket. The Lake Ontario Bank has gone into operation at Oswego. The Hon. James Platt is the President, and

E. B. Judson, esq., late of Syracuse, Cashier. The Racine and Mississippi Railroad Company give notice that their agents, Messrs. M. K. Jesup & Co., No. 44 Exchange place, will pay the semi-annual in-terest on their 10 * cent Farm Mortgage Bonds, due on the 10th inst.

We saw yesterday in Brooklyn a machine for cutting and dressing granite, which, to our unmechanical apprehension, promises to be very valuable. We shall publish in a few days a full description of this machine, but in the mean time give the annexed statement of the inventor, a Mr. George, an unpretending blacksmith from Nashua, N. H. This is the first machine. we understand, ever invented to cut so hard a stone as granite, and the principal claims it has are that it finishes the stone with sharp corners with the aid of hand dressing, and that it does not dull the tools. We saw a chisel which had passed over the whole length of the block of granite experimented upon, and upon comparison with a new chisel, no difference in the edge could be perceived. This is one of the remarkable features of the invention, that the tools require no sharpening, and this is the result of one of the principles of the invention, which is pressure, and not concussion. The statement alluded to is as follows:

New invention of a stone-dressing machine. Princi-ple, double action toggle-joint, with a series of chisels attached, which chisels are made to strike at the rate of about 800 strokes per minute each. Thus on a ma-

chine six feet wide, having 27 chisels of about 21 inches in width each, the number of strokes obtal and is 21.600 per minute. The stone feeds up to the chisels and may be cut at the depth of one to 1 wo inches at the rate of 180 superficial feet per hour on granite, and without any perceptible wear upt a the chisels. The stone is also dressed by chisel so as to do away with the necessity of rubbing. A block of granite can be dressed by this process so as to present a polished surface with perfect cort.ers. And with the same case moidings of any description can be cut upon granite saved by one machine is equal to 360 men per day, calculating five feet per man per day which is, we believe, a liberal average), and upon other stone in proportion to the hardness of the stone.

One very important item is the saving of tools. The average cost per man for sharpening tools is 60 cents per day when used in hand labor.

The power is so applied that the whole strain is upon the stone, thereby relieving it from the wear and tear to which machines of such magnitude are usually subjected.

feet. We may now look forward to an early finishing of the whole of this important work, as this tunnel has been always considered the greatest obstacle in the way of its speedy completion. Upward of 1,400 feet of the arching is completed, and material is all on hards for the finishing of the balance, which is now rapidly progressing. The Lockport Courier states that the jury have ren-

dered their verdict for the plaintiff in the suit of the towns of Niagara and Wheatfield against the Niagara Falls and Buffalo Railroad Company. The suit was brought by the towns, alleging that the railroad, by its proximity to the old traveled road from the Falls to Tonawanda, damaged the citizens of those towns by the unavoidable frequency with which cattle were killed by the cars, and that traveling on such road was rendered highly dangerous, both to life and property. It was therefore claimed that said road was a nuisance, and should be abated. The jury brought in a verdict against the Company, declaring in substance that the railroad should be removed. The counsel for the Company, however, have taken excep-

tions and appealed the question to a higher court.

The following is a translated extract from the European Circular of Marié & Kanz:

New-York, Monday, May 4, 1237.

Since our advices of 28th ult, we have haddno marked alteration to notice in our Stock or Money market. There has been less business done, and the disposition to speculate does not seem to be awakened by the increased case with which stock loans are effected. The fluctuations in prices have been irregular, some being higher and some lower than our last quotations. The appreciation of Money in London, and the apprehension of a further advance in the rate of the Bunk of England, as well as the stringercy now prevailing in the North-Western States, jointly contribute to neutralise the effect which, under other circumstances, the present state of the Money market might warrant.

circumstances, the present state of the Money market might warrant.

The City of Albany having recently voted to lend its Bonds for \$1,000,000 to the Albany and Susquehanna Rairoad, and the act baving met with great opposition from the tax payers, the latter have applied for an injunction restraining the Treasurer from paying the interest due on the lat inst. on the \$300,000 issued in favor of the Albany and Northern Raifroad, on the ground that the law corflicts with the Constitution of the State of New York. These Coupons will, therefore, for the present, remain unpaid, but hopes are entertained that as soon as the legal question is settled steps will be taken to recognize all previously contracted debts.

A like injuction has been laid on the city of Rochester, in relation to the \$200,000 issued in favor of the Rochester and Genesev Valley Raifroad, but so strong is the public sentiment there have the property of the Common Council have voted unanimously to pay the interest on the Bonds, in spite of the injunction.

in bond, and 180 bags do. at 124c., duty paid both in Guning Eags.

SUGARS are firm, but quiet, in consequence of the continued inclement weather. The sales are 220 hids. Cuba at 10@11c., and a few Porto Rico at 11c.

SALTPETER—The transactions in Crude at Boston for three days, ending Friday, were 900 bags at 7½d7ic., and 100 bags at 2c. per ft. 6 mouths.

TALLOW—A steady market, the arrivals are light; sales of 11 coc ft at 11½ 11/c.

WOOL—The Market for all kinds is extremely quiet, but prices are sustained; the stock of Domestic is very light, yet the manufacturers continue to purchase sparingly on account of the unsatisfactory state of the Woolen Goods market, and to effect any considerable sales, holders would have to submit to a slight recession in price. Foreign is also quiet, but prices remain the same : the stock is light.

WHISKY—The market is better, the arrivals are not as large; sales of 630 bhls. at 22½ 729c., for Ohio and Prison.
